

## iPad Apps Available Through the Library

Library databases are accessible through the iPad's Safari web browser, however some offer iPad Apps are that are available due to library or medical center subscriptions. Download and activate them by following the instructions below from the OSU network or while signed in for off campus access.

Find clinical answers at the point of care or anywhere you need them with the UpToDate mobile App.

1. Access UpToDate from the library website and register for a free personal account.
2. Download and install the UpToDate app from the App Store.
3. Launch the App and enter your UpToDate username and password when prompted.

The First Consult App is a clinical decision support resource available due to the library's subscription to ClinicalKey.

1. Access ClinicalKey from the library website and create a free personal account.
2. Download and install the First Consult app from the App Store.
3. Open the App, select the "I use First Consult and know my user name" option, and enter your ClinicalKey username and password when prompted.

Micromedex provides 3 drug information apps due to OSU's subscription: Micromedex Free Drug Reference, Micromedex Drug Interactions and Micromedex IV Compatibility. For instructions to install and activate these apps:

1. Access Micromedex from the databases page on the library website.
2. Click on the "Mobile Micromedex" link at the top left corner of the screen, next to the Micromedex 2.0 header.
3. Follow the instructions on this page to install and activate these Apps.

The BrowZine App allows you to find, read, and monitor scholarly journals by creating a personalized bookshelf of your favorite journals and saving PDF articles to read at your convenience.

1. Download the BrowZine App from the App Store.
2. Open the BrowZine App and select Ohio State University as your library.
3. Enter your OSU internet username (name.#) and password for access to OSU subscribed journals.

The Stat!Ref App provides access to subscribed books including AHFS Drug Information, Taber's Cyclopedic Medical Dictionary, Davis's Drug Guide for Nurses, and more.

1. Download the Stat!Ref App from the App Store.
2. While on the OSU network, open the App and select the Group Authentication (IP Address) option, enter OSUHSC in the Group Alias box, and tap "Login."
3. From off campus, follow the instructions within the App to create a temporary login account.

ACCESS  
Medicine

The AccessMedicine App provides point of care information from Quick Medical Diagnosis & Treatment, Fitzpatrick's Color Atlas of Clinical Dermatology, the Pocket Guide to Diagnostic Tests, and a differential diagnosis tool.

1. Connect to AccessMedicine from the library website and register for a free MyAccess account.
2. Download and install the AccessMedicine app from the App Store.
3. Launch the App and enter your MyAccess username and password when prompted.

Contact Joe Payne, Collection Development Librarian at [joseph.payne@osumc.edu](mailto:joseph.payne@osumc.edu) or 614.688.0584 for assistance.

# Library Update

## Events and Activities:

### **Back to School: Copyright and Fair Use**

September 11, 2014

Health Sciences Library, room 400

3:30-4:30pm

### **The Twelfth Annual John C. Burnham Lecture**

Speaker: James Mohr, PhD., University of Oregon, Eugene

"Licenses on Their Own Terms: The Supreme Court and the Constitutional Origins of the Medical Profession in the United States"

October 17, 2014

Medical Heritage Center, 5<sup>th</sup> Floor Health Sciences Library

4:30pm

### **The Annual Medical Heritage Lecture**

November 13, 2014

4:30pm

Medical Heritage Center, 5<sup>th</sup> Floor, Health Sciences Library

"100 Years of Excellence: A Tale of Three Colleges," will feature a panel of experts from the Colleges of Medicine, Nursing, and Optometry who will provide details about the history of their programs. Pat Schwirian, RN, PhD, will share the history of the OSU College of Nursing, Richard M. Hill, OD, PhD, will represent the College of Optometry, George W. Paulson, MD, will provide historical details about the College of Medicine. Ronald St. Pierre, PhD, will moderate the panel discussion.

### **Currently: New exhibit at Graves Hall (near the south doors)**

The Medical Heritage Center and Medical Visuals teams partnered to create an exhibit celebrating the 100th anniversary of the College of Medicine. The exhibit features artifacts, information and photographs about the first graduating class. It also highlights what was happening in the world, Columbus, and OSU at the time.

As the new academic year kicks in, please contact a liaison librarian for teaching or research assistance:

College of Dentistry	Judy Wiener
College of Medicine	Stephanie Schulte
College of Nursing	Natalie Kupferberg
College of Optometry	Fern Cheek
College of Public Health	Fern Cheek
School of H&RS	Lynda Hartel
Chaplaincy	Abigail Jones
Clinical Nursing	Stephanie Schulte
Consumers/Patients	Abigail Jones
Pediatrics	Linda DeMuro

## News:

Congratulations to the Event Technologies team of the HSL! Event Tech staff received numerous 2014 Telly Awards for their video work, including one for "Introducing: IDEA Studio." The video was awarded a Bronze Telly in the Health and Wellness category. The Telly Awards showcase the best work of the most respected advertising agencies, production companies, television stations, cable operators and corporate video departments in the world. The Telly Awards receives over 13,000 entries annually from all 50 states and many foreign countries.

Have you wondered how many reference questions are answered by the HSL librarians and staff each year? Find this figure and view additional statistics and organizational highlights from 2013 in the annual *Milestones and Accomplishments* report: <https://hsl.osu.edu/2013-hsl-milestones-and-accomplishments>

The HSL has partnered with University Libraries to offer a more streamlined, consistent interlibrary loan process. Customers who previously used the HSL Document Delivery ILLiad system, will see their records transferred to the ILLiad system at University Libraries. Previous customers will keep existing usernames and passwords, request history, and will have access to recently delivered PDFs.

Books from the University Hospital East collection will be added to HSL collections over the next several weeks. The small University Hospital East Library will provide online access to collections and computer workstations for hospital staff.

The Grayce Sills and American Psychiatric Nursing Association archival collections have been fully endowed within the OSU College of Nursing and processing will soon begin on these special collections at the Medical Heritage Center.

Medical Heritage Center staff will teach the course, *Digital Storytelling in the Medical Heritage Center* (ARTSSCI 2194) for the Fall semester (October – December 2014).

Two new Medical Heritage Center scholars moved into their offices in July, Dr. Robert Stevenson and Dr. Craig Miller. Dr. Stevenson will be writing a biography of his grandfather, who was a notable Columbus physician and Dr. Stevenson will be writing a book about Dr. Robert Zollinger for the American College of Surgeons. The Scholar-in-Residence program is supported, in part, by the Columbus Medical Association Foundation.
