Want to teach?

Southern Teachers can help you find a K-12 teaching job!

Apply now

SouthernTeachers.com

How does it work? Submit an application via our website. You'll be assigned a placement counselor who stays with you from start to finish, helping you assemble a compelling credentials file, prepare for interviews, and discern the best opportunities for you. Southern Teachers then refers your file to schools for jobs that match your interests and talents.

SOUTHERN TEACHERS
AGENCY

This is a FREE service for candidates!

We are supported entirely by our member schools because they recognize the value of Southern Teachers' assistance in recruiting talented candidates.

Requirements:

No license or certificate needed!

Our member schools can hire teachers to work in their major field of study, which means math majors can teach math and Spanish majors teach Spanish.

Founded in 1902, Southern Teachers is the oldest teacher placement service in America. Each year, hundreds of independent schools in the South list thousands of jobs with Southern Teachers because they trust us to find candidates who not only meet the job requirements, but also relish the opportunity to be a part of a distinctive independent school community.

Independent Schools are a type of private school that focus primarily on preparing students for college, but more broadly seek to maximize the potential of their students—academically, athletically, artistically, socially, and personally.
