

# H.S.H. Prince Albert II of Monaco

## Lecture on Global Sustainability Issues

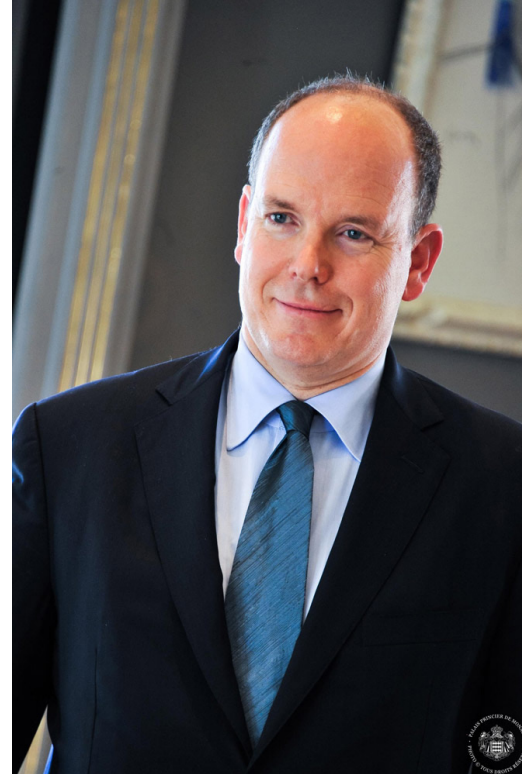

H.S.H. Prince Albert II of Monaco, a staunch supporter of global environmental and sustainability issues, will present a lecture to the campus community focusing on our common challenges facing society: climate change, biodiversity and access to clean water.

**Wednesday, August 31**

**3:30 p.m.**

**Mershon Auditorium  
1871 N. High Street**

H.S.H. Prince Albert is committed to carrying out an exemplary environmental policy in his country, by favoring the development of public transport, ecological vehicles, renewable energies and high quality environmental buildings. In 2006, H.S.H. the Prince set up the [Prince Albert II of Monaco Foundation](https://www.monaco-prince.org/), dedicated to protecting the environment. It encourages sustainable and fair management of natural resources and places humans at the center of its projects.
