

ECE Sophomore Lab Preliminaries

Welcome to the ECE 2060 / 2050

Course Website: <https://u.osu.edu/ece2060labs/> or <https://u.osu.edu/ece2050labs/>

Before starting your first lab session, you are required to perform the following:

1. Verify that your ECE Computer Account is Activated by logging in.

NOTE: Since the Caldwell Lab will NOT currently open. Please complete the following in one of 24/7 ECE computer labs listed below.

Room Number	Operating System	# of Seats	Peripherals
CL260	Windows	46	Printers and Scanner
DL517	Windows	24	Printers and Scanner
DL557	Linux	26	Printers
DL817	Windows	13	Printer

User Name: last name.# (same as main OSU/OSU wireless)

Password: same as main OSU/OSU wireless

If you are having trouble logging in please check with the CIO Help desk to verify that your university account log in is working.

If you are still having trouble logging in, email ECE SITE at site@ece.osu.edu

Remember you are expected to be able to login to an ECE machine before coming into your first day of lab. If you have NOT able to log in, you will NOT be able to start

2. Purchase and Bring a USB Flash Drive to Lab

Many experiments require the use a USB flash drive. You should always bring one to class. All other materials will be provided.

NOTE: Your USB Flash Drive will NOT work with the oscilloscope if it is formatted as NTFS. **It must be formatted as FAT32.** To check formatting, insert the USB flash drive in the computer USB port. Select the drive, right click, and select Properties. You can reformat the USB Drive here but **YOU WILL LOSE ALL DATA ON THE USB DRIVE!!**
