I think this is a great project idea and a great way to introduce new teachers into the culture of our schools. I would reach out to the schools to find out what information each school would like to see included in the handbook. Please continue with your project and let me know how I can help in the future.

Thank you! Would you be able to make some comments about my project plan via email and give me an OK to proceed?

Here you go- I am not the best writer, so take my edits with that in mind. Good Luck! send it back if you want me to look at it again.

Hello Ms. Agey,

For my final class, I am coming up with a teacher manual...This is just the introduction... I would love any feedback you would have. If there are programs or strategies I have missed, or if there are certain strategies and programs you would suggest for me to focus more on, please let me know. This feedback will be used for the overall project and a written approval for me to proceed in developing the rest of the handbook.

I would love to have you as one of my project clients on this project for my final class in the Master of Learner Technologies program at The Ohio State University!

Respectfully,

Patrick J. Littrell
