

Home Landscaping Part 2: Attracting Wildlife

Backyards play an increasingly important role in wildlife conservation. Learn to help reduce the negative effects of habitat loss on birds, bees, butterflies, and other wildlife species in your area by creating a favorable landscape.

Marne Titchenell is a Wildlife Program Specialist with OSU Extension. She works to provide a variety of educational programs, workshops, conferences, and publications centered on wildlife ecology and biology, habitat management for wildlife, and managing nuisance wildlife species.
