Global Awareness

An artifact that comes to mind when Global Awareness is mentioned are rallies and protests. In my future if I have an idea that I value and am passionate about and wanted to raise awareness I would participate in a protest or rally.

By graduating high school and taking classes in college I am further developing my academic knowledge.

Leadership Development

An artifact that I believe represents leadership development would be involvement. I value the concept of joining clubs and organizations which often provide the opportunity to take on leadership positions.

Service Engagement

An artifact that I believe represents service engagement would be volunteer work. I value volunteering my time in the clubs and organizations I am a part of to provide service to the local community.
