[1] Nurse-midwifery students who have no prior experience with cervical exams during labor, fetal monitoring during labor and being with a woman during labor and birth are required to take the course. Students with this experience may submit written documentation of these experiences to their academic advisor and Specialty Track Director for review, followed by petitioning the Graduate Studies Committee to waive the course based on the submitted documentation of prior experiences.

This is a sample curriculum only. Your specific curriculum plan must be confirmed by your advisor and entered into the college database.
