Leading in the New Normal

Dr. Tracy Dumas

Associate Professor, Fisher College of Business, Management and Human Resources

Tracy L. Dumas, Ph.D. is an associate professor of management and human resources at the Ohio State University's Fisher College of Business, where she teaches MBA courses on negotiations and managing teams. She earned her PhD in management and organizations from the Kellogg School of Management at Northwestern University, and has taught and conducted research in the area of organizational behavior for over fifteen years.

Dumas' research examines how employees' nonwork roles and identities shape their work experiences. Her research is published in leading academic journals, and she has also written articles for *Harvard Business Review*. Additionally, several media outlets have profiled her work including *Forbes.com*, *The Economist: Which MBA?* site, *Fast Company*, the *Bloomberg Business BNA Workforce Report*, *Harvard Business School Working Knowledge*, and the *HBR Women at Work* podcast.

Prior to joining Fisher, Dumas was a visiting assistant professor at Emory University's Goizueta Business School, and an assistant professor of organizational sciences at George Washington University. Prior to entering academia, Dumas managed client projects for a Chicago-based consulting and research firm specializing in work force issues.

Presentation description:

In this timely and immersive session, Dr. Dumas will share detailed research findings on the act of managing boundaries, both professional and personal, while leading in a new normal. Participants will be guided to better identify blurred or unfair boundaries, based on trends and data, and apply strategies to best navigate these new scenarios.
