Experiment Replication

Protocol.pdf

This document outlines our protocol, including recruitment procedures, randomization, and experimenter scripts.

Data Replication

RawData_JEPS.csv

Raw data collected during experimental sessions, including game behavior and survey responses.

DataClean_JEPS.do

This Stata do file cleans RawData_JEPS.csv and generates new variables to be used in the analyses.

FinalData_JEPS.dta

FinalData_JEPS.dta is a Stata data file produced by running DataClean_JEPS.do on RawData_JEPS.csv. This dataset is used for all analyses.

Analyses_JEPS.do

This Stata do file performs all analyses reported in the main text and appendix using the FinalData_JEPS.dta dataset.

PowerCalc_JEPS.txt

This text file produces the power calculations and resulting Figures A.2 and A.3 of the appendix using R statistical package.
