She Waits

1. Character in scenic setting (she looks confused as to where she is at)
2. We see her in a later point in time with her clothing tattered and torn
3. We zoom out to see that she is a computer program named "Inuitive AI sys0035" she is being watched by a researcher who appears to have a guilty look on her face
4. The same researcher is later pictured stealing the AI software
5. The software is now plugged into her own computer at home. The screen displays that she is switching the program from research mode to plenty mode
6. The researcher is seen with a helmet on that is transferring her to the software
7. They are united and are able to fall in love in the system

Below are the frames enlarged
