

Youth Cooperative Leadership Experience Ag Careers “Heads Up”

1. Place all career cards facedown.
2. Decide who goes first by who has a birthday closest to today’s date.
3. The heads-up player draws a card and without reading it, holds the card to their forehead with the words facing toward the rest of the group.
4. The remaining players take turns giving the heads-up player clues to the career, with the heads-up player trying to guess the career until they get it correct. If necessary, players can look up the career online to help them understand the career so they can give helpful clues.
5. If all other players have given a clue and the heads-up player still has not guessed the career, the heads-up player may then look at the card.
6. Discuss opportunities in that career field and have players indicate their interest in that career.
7. Play passes to the left after the career has been briefly discussed.
8. Continue until all players have had an opportunity to be the heads-up player, or until you run out of career cards.
9. Challenge players to think of new careers to put on the blank cards.
